

Oppose the Emergency Financial Manager package SB 153 through 158.

Protect Your Right to Local Representation!

If these bills were to become law:

- **Lawsuits** all across Michigan will occur as currently negotiated and legally binding contracts are cancelled.
- One person appointed by **bureaucrats in Lansing** will give out contracts from cities and schools boards. Previously, some of these appointed financial managers abused their power and gave contracts to their friends and relatives.
- **Elected officials would be removed.** This legislation is undemocratic. The citizen's voice is lost, their elected representative are kicked out and replaced by an appointed bureaucrat.
- Class size, academic control, availability of school buses, decisions about **continuation of athletics and music programs** and thousands of other decisions in your schools will be made by an unelected bureaucrat from Lansing.
- Whether your streets are snow-plowed, your city parks are open and all issues of public safety, police and fire departments would be made by an EFM **rather than your locally elected officials.**

Call your Senator today. Make sure they know to oppose Senate Bills 153 through 158.
